Variance / error minimum: $\kappa = 1/2$
Sharp V^0/D_κ ceiling: $1/\kappa$
Sharp V^0/K^0_κ ceiling: $1/[\kappa(1-\kappa)]$
Variance / teacher-error constant
Shape κ
Variance envelope: $\kappa = 1/2,\ \eta = 0.3$
Actual supervision variance
Error bound $4H^2(q_n, T)/(1-\eta)^2$
Uniform geometric envelope
Supervision variance or its bound
Exact outer update n
