
Constant LR comparison; descriptive anchors follow prior d30/d60 diagnostics
Normalization does not remove Adam moment history or establish causal control
Absolute KL after step 60
KL / KL(step 60)
KL / KL(u=30): common effective-time anchor
Train KL(p || teacher)
Normalized KL
Pre-clip grad norm, trailing-20 median
Optimizer updates
Updates since step 60
Effective time since u=30
